

# Property Rental/Property Listing

The purpose of the Housing Registry is to help renters find accessible accommodation and assist landlords in advertising their accessible vacancies in an additional and more streamlined way than other services. While Accessible Housing lists properties on our website, listings have not been inspected, vetted, or approved by Accessible Housing and we do not guarantee rental inquiries, nor are we responsible for renters who contact stated landlords with inquiries and as such cannot be held liable for any action resulting in listings posted. Accessible Housing simply act as a third party to assist in the ease of finding accessible accommodation within Calgary and surrounding areas.
