

RAD Renovations Application Form

Residential Accessible Design (RAD) Renovations is a program helping Calgarians with limited mobility and low-incomes live safely in their homes and communities. This program offers multiple services, including; client and home assessment, drafting of construction drawings, assisting clients in pursuing renovation funding, project management and construction oversight, and supporting client and landlord (if applicable) throughout the process. Please be aware that RAD Renovations does not contribute financially to any renovation work being completed and as a program only works alongside clients in attempts to obtain finances through alternate means.

Please use the attached application form to apply for RAD Renovations. This application does not guarantee acceptance into the RAD Renovations program and is used as an initial information and screening tool. All information is confidential. Upon intake, some clients will be required to submit certain documentation (Notice of Assessment, Property Assessment Notice, letter from a physician) in pursuit of funding, and be asked to sign a Release of Information for partnerships with specific agencies.

Please return this completed form and all supporting documentation by:
